When to Seek Urgent Care

Call emergency services (911 / 999 / 112) immediately if:

- Chest pain, pressure, or tightness
- Difficulty breathing or shortness of breath
- Sudden severe headache unlike any before
- Facial drooping, arm weakness, or slurred speech
- Thoughts of harming yourself or others
- Severe allergic reaction (throat swelling)

Questions to Ask Your Doctor

- Could my symptoms be related to Acute Myocardial Infarction?
- What tests would help clarify the cause of my symptoms?
- How urgent is it to investigate these symptoms further?
- Are there lifestyle changes that might help?
- Are there interactions between my medications and these possible conditions?
